

~ WEATHER CONDITIONS ADVISEMENT ~

UPDATED 10-19-18

Updated information in relation to *Frequently Asked*. City Hall's email is srbv@cityofsunrisebeach.org.

- **Water Supply** – The City is testing the water daily and there is still no need for concern; our quality of water remains the same. The water supply for the City of Sunrise Beach is ground water; TCEQ monitors the City Water Supply.
- **Property Lost & Found** – Continue to contact City Hall and the Police Department to report lost or found property and watercraft. All our departments are working together, diligently to maintain lists of all items reported and matching them up with their owners.

These are some additional options:

- There is a Facebook Page with many listings of Lost & Found items – The Group is called Highland Lakes Flood 2018 LOST & FOUND.
- Of course, we have our “Next Door” with many postings and information.
- If you found a watercraft you can verify and/or identify property owners by visiting: Texas Parks and Wildlife - <https://tpwd.texas.gov>, Select Boating at the top of page, Select Boat Ownership at drop down menu, enter your name and number as requestor then enter boat information. If you cannot contact the owner, you may call Texas Parks and Wildlife for the owner's phone number (they do not list that on the webpage). Phone: 800-262-8755.
- **Road Closures**: There are no road closures within the City of Sunrise Beach. There are still some low-water crossings that are closed so check for road closures with your local news station before traveling. Of course, these are minor. The loss of the 2900 bridge will impact us for a very long time unfortunately.
- **LAND Line/Phone issues**: We lost our land lines when we lost the 2900 bridge. City Hall is working on alternative ways to contact us. Currently, we are relying on e-mails. Verizon has had good service throughout. AT&A has reported some lost fiber optic cables. Also, some areas in Sunrise Beach lost Northland Cable connections. Unfortunately, crews from Northland Cable are not being sent out until the flooding resides.
- **Debris/Refuge Cleanup**: Please see our flyer entitled: Separating your Debris. If you require immediate removal, homeowner will have to check what the dumps fees are, there are two local dumps The City of Llano Landfill at 325-423-2435 or City of Burnet Transfer Station at 512-756-6318. Please call before going out to these sites.
